

CREAN Inc.'s Transformation Journey with Vistrada in a Highly Regulated Vertical

BACKGROUND

CREAN Inc., based out of Austin, TX, operates at the forefront of the aerospace industry, a highly regulated vertical with stringent compliance requirements. With a robust portfolio ranging from hands-on aerospace engineering services to smart factory transformations, CREAN offers tailored solutions that meet the integrated needs of its diverse clientele. From start-ups to Fortune 100 companies, CREAN is dedicated to helping businesses engineer and produce top-quality products at a faster rate.

CHALLENGE

Operating within a rigorous regulatory environment, CREAN grappled with the effective implementation of the NIST and CMMC practices. Translating these practices into actionable measures posed a challenge. Further, their SPRS-NIST score reflected a gap between policy and practice.

SOLUTION

Vistrada emerged as CREAN's trusted partner. Described by CREAN as "supportive and responsive with high attention to detail," Vistrada transformed the theoretical practices of NIST and CMMC from mere documents into actionable processes. Key highlights of the partnership include:

1. Detailed Implementation

These benefits are really helpful for rebranding your product or services and building another image for customers.

2. Dashboard & Training

CREAN benefited from Vistrada's dashboard for seamless documentation. Additionally, Vistrada's security training fortified CREAN's workforce, equipping them with the necessary tools and knowledge.

3. Remarkable Growth

CREAN's SPRS-NIST score witnessed a significant leap of nearly 100 points, a testament to Vistrada's meticulous approach and effective implementation.

4. Cultural Alignment

Beyond technical support, CREAN found in Vistrada a partner that echoed its corporate culture - one that values thoroughness, responsiveness, and camaraderie.

"Vistrada's team is not only responsive and detail-oriented, but they've also helped us elevate our SPRS-NIST score by nearly 100 points in less than a year. I'm excited for our future growth and would highly recommend their services."

Ashley Armenta
Director of Operations at CREAN

WHAT'S NEXT?

The journey doesn't end here. Vistrada is gearing up to assist CREAN with the next phase - diving into GCC High, ensuring that CREAN continues its trajectory of excellence and compliance within the aerospace sector's tight regulatory boundaries.
